

Key Nutrients Are Vital for Immune Function

The Vital® and Pivot® product family are peptide-based, complete therapeutic nutrition with specialized ingredients to support immune function and to modulate inflammation.

Omega-3 Fatty Acids (EPA and DHA)

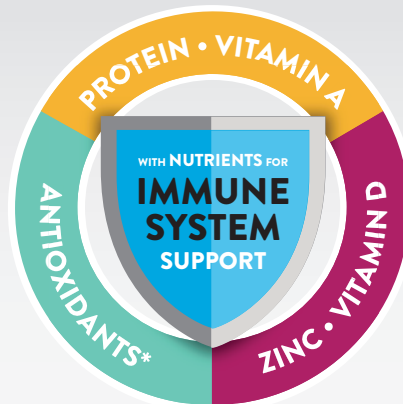

- Help modulate inflammation^{1,2}
- Support immune function^{1,2}

Elevated Levels of Antioxidants*

- Reduce tissue and cell damage due to oxidative stress³
- To reduce free radical damage³

There are times when it's essential to support your patients' immune systems. Proper nutrition plays a vital role by providing key nutrients for immune health support.

* Vitamins C and E.
